Meeting Announcement - Bottling Party & Pot Luck

WHEN: April 14, 2012 @4 pm

WHERE: Home of Bart & Nancy Holmquist
1333 Prairie View Road
Eagle, NE 68347
402-310-9883 (Bart)

Our next gathering will be on April 14th to bottle the 34 gallons of club wine. The Brianna wine blended with about 10 % Traminette will need to be racked into the two Snyder fermentors, sweetened to consensus taste (two different batches), then filtered and bottled with at least one Enomatic filler system. There are enough empty bottles on hand for the batch and Jim Skinner ordered synthetic corks. I would like to have a label ready—I have a laser printer and blank label stickers and only need a good design for the label. Anyone care to make a design or have suggestions for the label?

When the day is done those who are involved in helping can take home their portion of the lot of wine bottles, depending on how many we create. If you have other or better ideas or suggestions on these plans get back to Bart ASAP.

We would like to meet the Holmquist's house about 4 pm to get things started then have a potluck meal while the work is going on. We will disperse when all is done and the bottles ready to take home. So bring a pot of food, some wine, and some money for the wine (guesstimate about \$1.25/bottle)!!

Additional filtration bottling system and corkers are needed to get the bottling done efficiently (or at least before midnight). Please call Bart (402-310-9338) if you have equipment you can bring. See you all on the 14th of April!

Bart
